

# QuickBooks Enterprise 11.0 Features and Benefits

## Core Product Benefit

QuickBooks Enterprise Solutions offers the advanced features and functionality of a sophisticated accounting and financial software system with the same ease and familiarity of your current QuickBooks.

## New Features Exclusively Available in QuickBooks Enterprise Solutions 11.0

- **Multi-location Inventory Tracking:** Easily track the quantity and value of inventory in multiple locations with the new QuickBooks Enterprise Solutions Advanced Inventory.
- **Work in Two Company Files at One Time:** Save time spent switching between QuickBooks files by working in two instances of QuickBooks Enterprise Solutions at the same time.
- **New Approach to Custom Reporting with ODBC:** Create custom reports with ODBC-compliant applications using a new direct connection to the QuickBooks database for maximum flexibility in report design.
- **More Combined Reports:** You can now create a Profit and Loss by Class and Sales by Customer Summary Report that combines data from multiple company files.

## Full Service Plan Features

- **Automatic Product Upgrades:** You will automatically receive any new versions of our product that are released, with all the latest features and enhancements.
- **Unlimited Customer Support**
  - **U.S.- Based Product Experts:** QuickBooks Enterprise Solutions customers get exclusive access to a U.S.-based team of experts with deep QuickBooks product knowledge. This unique team can help you use QuickBooks Enterprise Solutions more effectively within your business.
  - **Technical Support:** Access to the Enterprise Solutions technical support team for help with installation, data conversion and other technical questions about your software
- **Free Interactive Training Tools:** Get a complimentary copy of Mastering Intuit QuickBooks Enterprise Solutions (a \$399 value) — an interactive training DVD to help you and your staff learn how to use QuickBooks Enterprise Solutions more efficiently.

## Now Including Powerful New Web-Based Services...

Enterprise Solutions integrates with powerful, new web-based solutions to manage additional business processes critical to your organization.

- **Intuit Data Protect:** (formerly Online Backup Service) Intuit Data Protect makes it easy to back up your most critical QuickBooks business data online. Enjoy peace of mind knowing that your business is prepared for the unexpected.
- **QuickBooks Attached Documents:** (formerly Document Manager) Organize all your business documents in one place with QuickBooks Attached Documents. Whether its invoices, estimates or orders, you can now securely store all electronic documents linked to your QuickBooks, online and easily scan paper documents for easy access in one central location.
- **QuickBooks Connect :** Access your key QuickBooks data online or on your mobile phone so you can quickly answer customer questions and get more done when you're on the go.
- **Time and Billing:** Helps you track time and invoice clients for all the work you and your employees have done on their behalf.
- **Commissions Manager:** Intuit Commissions Manager seamlessly integrates into your existing business processes so that you can more quickly calculate sales commissions by invoice based on transactions or item.

Initially, we will not proactively market these services while we are gauging customer experience with the set up process and use . We expect to market more aggressively by the end of the calendar year.
